ARCA NOAE: *The story so far*

Our mission,
   where we are,
     and where we're going

Lewis Rosenthal, CNA, CLE, CLP, CWNP
Managing Member
Arca Noae, LLC

Our Mission

- We are dedicated to maintaining and developing new and existing software, drivers, and services for the OS/2 operating system, including all OS/2 derivatives.

- Our goal is to do whatever we can to keep OS/2 viable on modern hardware for those who choose to use it, whether individuals or enterprises, longtime users or new ones.

2014

- Resources aligned

- Talent contacted

- Entity formed

- Web presence begun

- Development of new software started

- Driver fixes packaged

First Quarter 2015

- Contact with Alt Richmond concerning SNAP

- Discussions with former SNAP developers

- Beta & translation teams assembled for YUMIE

- USB updates and more

- Multimac development

- Samba and Kerberos discussions

Second Quarter 2015

- SNAP source code license acquired
- SNAP developers in place
- Samba development moving again
- Kerberos 5 working
- YUMIE development continues

Remainder of 2015

- Samba 4 client, with full support for SMB2 (2.02 dialect) and NTLM v2, with NetDrive plugin

- Kerberos 5 (with the Samba 4 client, OS/2 functions as non-legacy client on Windows 2008/2012 Active Directory network)

- Enhancements to WarpIn and support for repositories of WarpIn archives in YUMIE

- YUMIE GA, bringing unified package management to the platform

Remainder of 2015 (continued)

- SNAP fixes (SMP/MTRR)

- SNAP enhancements (ports, ports, and more ports...and multi-head, too!) — *proposed*

- SNAP new chipsets (Intel HD) — *proposed*

YUM & WarpIn Repositories

- Software & drivers available to subscribers now by logging into the web interface will be accessible via YUMIE

- New packages will be available, either as RPMs or WarpIn, and many will be completely free, not requiring subscription or authentication

Other Great Things

- Serenity Systems International

- Strong ties to bww bitwise works GmbH

- Development of reseller program and support for resellers

- Company expanding; adding personnel

- Listening to users and administrators
